AMAZING TIMELY SALVATION

On 25th May the last day of our rent in our 'old house' in Bunwell, we said bye bye to our neighbour who we had witnessed to several times in the past. He sat down (having heart problems) and Caleb said: "We can pray for you!", which he wanted us to there and then. So we did pray that he would understand the most important thing for him was to get right with God. Just before we entered our car Donna

had that prompting from the Spirit of God to go back to our neighbour and ask him if he would like to do that. So David went back and our neighbour straight-away said "yes please". David explained salvation afresh again by using a simple illustration of his lawn being the sea with someone drowning in it and then somebody else throwing a life ring into it to rescue him. If the drowning person chooses

to cling to the life ring he is going to be saved. He is that person drowning and Jesus is the life ring. We are not automatically saved even though Jesus paid for it. We need to choose to cling to Jesus for the Salvation of our soul. He asked the Lord for forgiveness and gave his life to him. Praise God for that wonderful last memory from our 'old house'!

THE LORD'S WAY IN THE SCHOOL OF FAITH

We were unsuccessful on the house hunt for months. Then we discovered a three bedroom Cottage for an amazing price of £460.- a month and were given the hint that we have a good chance to get it. Later our hope was dashed when

we found out it was given to someone else. The time became tight and the Lord gently cornered us, wanting us to fully trust in HIM ONLY. We had to give notice for our old house by faith believing God will open a door for a new home for us to live in - to

keep in mind that we were on the hunt for already quite a few months with disappointments behind us. Literally a few days afterward, we praise God that we were offered two houses from which we could choose :-)

MASSIVE COLLISION OF LIGHT AND DARKNESS

We have experienced increased opposition lately at the Open-air. A man attacked us physically and tried to destroy the talk visuals as well as throwing all the tracts from the table and the board all over into the street. The battle between light and darkness was so evident. When you

looked at the attacker's

angry face you could see by what force he was driven. A police man off duty just passed by and took care of the man. He held him on the floor and eventually the police in uniform came, handcuffed the attacker and took him away. That was some adventure.

Divine healing.
Verified by doctor.

I am enclosing a copy of the doctor's letter confirming the lesion gone. (I have erased the bits that don't apply...) The lesion was picked up on my liver after a routine CT scan on my pancreas (because I have pancreatic insufficiency) and we feared the worst. Although small in size we were worried because I have had cancer before. They did two other scans a few months apart on which the lesion was clearly seen but after David prayed over me that day, the following scan was clear!! ...and thank you Jesus that your touch still has its ancient power!

(Medical Letter—partly blanked for privacy—overleaf)

HUGE THANK YOU FOR YOUR PRAYER-SUPPORT!

Dear Doctor,

Re: Tracy

I reviewed Miss Gunn in clinic today.

She had an ultrasound scan of her abdomen which was reported entirely normal. A small 4mm lesion was noted on the previous CT scan which was not seen on this ultrasound scan. So at this stage, I have reassured her and discharged this lady back to your care.

Kind Regards
Yours sincerely
