Issue No. 8 December 2016

MINISTRIES

Exciting News!

Please pray for us as we are preparing for a major event in January. God opened the door for us to run a three day crusade (9.00am to 6.00pm every day with an hour lunch break) and other events in Tanzania. Please pray for protection and a mighty work of the Spirit.

Also our new updated App is now available. We had some difficulties with the App on Apple store but everything is finally sorted now :-)

Please download here for:

God said: "Speak to that man!"

I was in the car driving. There was a drug addict called 'F' sitting against a wall. God said to me to speak to that man. I turned round and stopped the car. Then I explained to 'F' that God loves you so much that He sent his Son to die for your sin! And that God has a purpose and a destiny for your life. God sent me to you, that's why I came back. F's eyes welled up and he got so moved that I stopped the car and talked to him. He listened carefully and believed every word I said.

'F' was so touched that I took time to talk to him.

His self-esteem is very low. A few weeks prior somebody tried to cut his nose off. You could still see his scar. The scars of

the past in his heart seemed even bigger. He showed interest to read the tract and go to church. It was somehow sad to leave him as I most likely will never see him again. Please pray for 'F' that he will get saved soon and get free from his addiction. The main reason we chose to put this incident into the newsletter is to encourage you to not neglect the prompting of the Holy Spirit and touch lives around you.

Office clerk is amazed of answered prayers

David met an office man 'K' in shirt and tie and as they were talking David felt very specifically to ask 'K' if he was a Christian. He answered yes. (He wasn't a born-again Christian, but open for God). Straight-away the conversation continued on a spiritual level and 'K' opened his heart up. He said that he has cancer etc. He accepted David to pray for him. Weeks later when David happened to phone that very office to speak to

someone else, he recognised K's voice and asked him if he remembered David. It clicked straight-away and that highly official voice changed into an excited voice of a friend and these were his exact words (copied from the phone recording): "Listen, you know when we met? Within 5 minutes leaving you, I got a phone call from the hospital and I got the all clear. I went back to the office and said,

I have met one of the nicest chaps, Mr Ohin and to be fair he prayed for me. And literally a minute after I left him I got a call from the hospital and was given the all clear, honestly I couldn't believe it! (David then said "Praise God"...then 'K' continues) Absolutely Praise God! It was honestly so uncanny. That absolutely blew me away, I can't tell you, honestly! I can't believe it. Thank you very much for praying for me."

Back healed after 40 years!

Praise the LORD for the healing. - I have had a back problem for about 40 years until recently. At its worst point walking more than a few

yards was an impossibility. Throughout this time I have been a Christian and have been prayed for several times. As with all back problems it has ebbed and flowed and my mobility would improve for short periods and then revert to being impossible. The 19th July this year was a day when my back was excessively painful, it was also the day of a funeral of an acquaintance. This was a graveside only service, where we could expect to be standing for some time. To offset this I took two folding chairs, one for a friend and one for myself. When we went to the graveside, an elderly lady came who was on crutches and obviously in distress. So I gave her my chair. As we stood there waiting, the pain became so intense that I had to go and lean on the graveyard fence, which fortunately was close by. The LORD sent three people to help me. The first came during the service, whilst I was leaning on the fence to check that I was all right, the second came at the end of the graveside service and carried the folding chairs back to the car. Lastly Afterwards David came to me whilst we were at the wake, and rather than ask a question, he stated, "you have a back problem" and proceeded to lay hands on me and prayed. By the following morning I knew that there was an improvement in my back. Two days later we went on holiday and I walked distances far in excess of anything I had done for years, including some significant hills! In conclusion, I can only say "Thank you Jesus" for sending his people to me on that day, and for healing me from this long standing problem.

Huge thank you for your prayer-support!

David & Senra

The Ohin Family wishes you a Happy Christmas!
