Outstanding Amazing Crusade in Uganda

Those of you who are on the 'WhatsApp event updates group' know most of this already. We have decided to share a bit more this time. Things which we have not published in the past. **We had an outstanding & amazing crusade with people amounting to over 1,200 attending!** The place where we ran the crusade has been extremely dry, since they have had a long time unbearably hot and without rain. This is because it had been cursed by the witchdoctors of the area to make the community suffer. **Literally after David prayed** (prior to the crusade starting), **to set the ground free and broke the curses, a wind came. The clouds gathered and it rained torrentially.** People started to dance and jump in the rain with immense joy thanking God and great fear came over all the witchdoctors. We praise God for HIS mighty power and give HIM the glory!

Another amazing powerful act of God was on the second day. In that afternoon God revealed that the witch-doctors will send a mighty storm-wind to the crusade ground to blow everything away including the equipment. We rebuked it and fought against this attack. God gave us the confirmation that the prayer has been heard. As soon as the crusade started with worship, indeed what happened? A mighty wind came to the crusade ground which was so powerful that the people were terrified for their lives and started to run away. The pastors then announced not to be afraid as the LORD has already revealed this attack beforehand and it will cease now. **After prayer the storm-wind stopped immediately and the witch-doctor's plan was totally cancelled.** The people remained on the ground and praised our Almighty powerful God in awe. Everybody was very happy worshipping.

On day 3 the witchdoctors were wild and aggressive trying everything they could. Only on that day the local people revealed to us and said the following:

"We had several preachers who came to our place in Otuke to run a crusade but not one single event succeeded. The witch-doctors stopped every single crusade by witchcraft. For example, they have sent the 'zuzu spirit' in form of bees coming to our meeting place to sting us. Every preacher then ran away as well as the people. Nobody ended up sharing the gospel in this place because of the witchdoctor's power. They can send snakes, flies, frogs and wind. This place has been dedicated to the ancestors."

All the witchdoctors were totally perplexed and confused, asking what power does this man of God David Ohin use? We give God the glory because the answer is very simple – HE is a person called JESUS CHRIST! Praise God!!!!!! The witchdoctors tried seriously to attack David personally as well as the technical devices, but every attempt failed. We praise our glorious Almighty God! No power can withstand HIM!

Another amazing miracle happened during the worship time. We drew a specific protection line around the whole crusade place in Jesus Name. Then... It rained everywhere apart from the crusade ground. This literally took place that afternoon during the meeting (worship part). They called David and told him about this unusual sight, not knowing that David prayed exactly that, 10 minutes earlier specifically for the whole crusade ground. God is good and worthy to be praised! Only HE can do such mighty things! The people want natural rain, but are terrified by the destructive rain instigated by the witchdoctors.

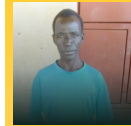

David had great liberty on the third day and he sensed that We could reach closer to the hearts of the people.

We are over-joyed to see 134 got saved in the crusade and over 200 people got free from evil spirits. Many of them were testifying of being healed and delivered from heavy tormenting demonic strongholds. We have taught our 'Christian Foundational Course' and the 'Evangelist School Course' to the new-borns (which we have just recently translated into their Luo language – that was a big project in itself with many difficulties!) We also baptised them. Please continue to pray for them.

Okullo is 45 years old age. He was struggling with severe migraines in his life. He tried many doctors to help him as

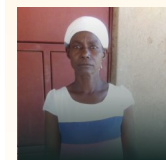

well as many different medications but all in vain. Nothing could stop his migraine. The Two Most Dangerous Witches Got Saved in the Most Amazing Way

Pastor's Report:

The two old powerful and very feared witches in that whole area of Otuke live only about 500 meters from the crusade ground away in their clay house. When the man of God came to run a crusade they started to attack him already on the first day and tried to destroy him as well as stop the crusade with witchcraft. However, they found that all their powers were blocked and they were totally powerless against David Ohin. They have never in their lives encountered so much power, so that they were totally astonished. They tried the same on day two and three. They could do nothing at all. **They were completely out of power since the crusade, meaning their power is totally gone and never came back even now many days later.**

These witches were extremely dangerous, tormenting people so much in this land of Otuke. They cause bareness in women, malfunctioning's in men, stopped the rain, killing people especially babies. If someone was prospering, they sent bees, flies or frogs to destroy that person. The problem was that they were untouchable. Even no authorities could do anything against them, because if you approach their home, they attack you by witchcraft and you are done.

The witches have heard every message the man of God preached. They called us to them and wanted to get saved. They repented and gave their lives to Jesus Christ their new Master. **This is so amazing here, because the whole area of Otuke is rejoicing including the political leaders as a huge problem has been solved.** Everybody is so happy and praising the mighty Name of our God! This crusade has changed everything here in Otuke.

14 Churches Planted in Tanzania

We are so incredibly thankful to God that we didn't lose any lives! We didn't expect those bad weather conditions. You may remember how we had huge political obstacles in our Karagwe, Tanzania crusade last year, where we couldn't end up with a successful crusade? But God had different plans. God showed David to throw the net out on the other side of the boat, and soon after

that He revealed what that meant. Our wonderful God opened up the door to plant 14 churches in that wide area. We as GAM Africa set off on a very dangerous journey through rain and mud to reach these remote places to launch the churches. The cold and weather put the team in danger on the roads as well as their health. **Malaria and pneumonia were caught but we are so extremely thankful to our wonderful God that no life was lost. On that trip alone 49 people got saved and added to those brand-new churches. These results come with a huge price tag and sacrifice. PLEASE pray for**

these churches and the new fourteen pastors who are all graduates of our G.A.M. Bible Colleges. That they will be encouraged, remain faithful and walk in the power of the HOLY SPIRIT. While our team was there the police arrested the bishop because he prayed for the sick people in the church who came to him for prayer. Because of the long journey and time getting on, they wanted to stay overnight, which he granted them, though it put him at risk. The law says they have to go to hospital and not keep anyone overnight as 'prayer won't do anything'. So, he was taken to court and it did not look good. But praise God, the police interrogated the bishop and when they found out that David Ohin from GAM is involved in this mission, they dropped the court case and let him free as they have great respect for David Ohin. Thank you so much for your prayer-support! Watch here: <https://youtu.be/AQ0gsx9ce14>.
